Animal Photo Poetry Creative Challenge

The Responsible Captain

5A22 Lee Lok Kwan

Morning to everyone!
Eyes catching my children
Ears detecting little steps
Ready to protect my kin
Keep watching and listening
Around the clock
Today's work never ends!

Penguin Adventurer

1A14 Lai Tsz Wing

In an aquarium far away,
Penguin adventures come to play.
To protect the land,
With loving hands.
They were braver,
They will never waver.

Penguin friends

1A33 Yau Man Wing

In that snowy mountains inside.
There is a pair of penguin support each other.
They promise a firm oath
They will be good friends with each other.

Majestic Meerkat

1B35 Yu Ho Yin

In the sunlit savanna,
A father stands tall,
In cool sunglasses,
He guards one and all.

Responsibility for all,
He keeps his promises,
No matter it rains or not,
With no room for fall.

The majesty staring straight,
With a smirkey face,
Rearing his head,
Not even a drop of sweat,
He protects his pals,
From dawn's first light to the starlit night.

Protect with pride

3A33 Fang Yuen Ying

In a world filled with icy frosty air,
Penguins with fierce in their stare.
The yellow of their head,
Bright like stars on red.

With nests built of love, their offspring they guide,
Each little chick cradled, protected with pride..
In the beauty of struggle, they find their own song.
A harmony echoing, reminding all of us where we belong.

Like warriors like fighters like soldiers.
They inspect, detect and protect.
Like our mother land, sharing loving and caring.

What of our nation, vibrant and wide.
We stand together, with fervent pride.

We are just a normal family

4A29 Yeung Guan Dao

We are just a normal family.
Each and the other have a responsibility.
Father catches the fish immediately,
Mother uses warm hands to envelop me securely.
But what is my responsibility?
I'm just a kid who loves with ingenuity.
That's my duty because we are just a normal family.

The cozy fox

1A25 Poon Wai Lam

You use your blankets to keep me warm
You stay with me until dawn
Your fur is like white snow
So you can protect me from the cold wind that blows
Form the snow through the trees
You protect me from all threats.

The Mighty Meerkat

2A05 Cheung Lai Sum

I stand alert, my duty clear.
Protecting those I hold most dear,
A faithful guard, the danger I chase,
For safety remains my scared space.

Building burrows,
To shield my fellows.
Responsible together, we will
endeavour.
Stronger together, forever and ever.
Mustering the might to avoid a fight.
The mighty meerkat stands tall and bright.

Facing different challenges

1A26 Shum Choi Hei

In the sunny savanna where the warm winds blow,
Meerkats stand watch in a playful row,
With little paws digging through the soft, warm sand,
They stick together like a marching band.

In family groups, they chatter and play.
Guarding each other throughout the day.
During the nightfall,
They stay together so they never fall.

Combining art, English, music, and technology, the Form 3 Flash Fiction project aims to challenge students across a variety of disciplines. Using song lyrics, students were tasked with creating images using AI and then adding their own linguistic flair with descriptions. The results are as inspiring as they are impressive.

3A Cheung Hei Tung , Ho Hoi Laam , Hung Pui Ka , Lai Cho Wing

In Hong Kong, after a lively secondary school graduation ceremony, a group of friends wearing robes held hands tightly. They ran out of the campus with great joy. Their laughter conveyed the promise that they would always be connected, no matter how far they are.

3A Fong Si Ching

A girl rests on the grass, gazing at the moon. The night sky is filled with stars, creating a peaceful scene. She seems lost in thought, perhaps dreaming of adventures beyond Earth. The bright moon illuminates the field, making it a magical moment.

3A Cho Man Ying , Ma Hoi Yi , Young Ka Yi

The pursuit of glory is a relentless journey, not a fleeting destination. Behind every triumph lies a tapestry of sacrifices, unwavering determination and countless hours of tireless effort. True honour is hammering on the hard experience, our dreams will come true someday.

3B Leung Wing Lam , Li Tsz Yan , Li Zi Yan , Zeng Jia Lu

There's a lovely couple at the beach watching the sunset. The sunset's sunlight shines on their body, reflecting their shadow on the warm sand. They happily held each other's hand while they romantically lay against each other. Their words of love were engraved on the sand near their legs. Their shadows glued together like their relationship.

3B Chan Hiu Ching , Chiu Chouk Hoi , Fan Yu Ho , Wu Ho Tin

A group of people who are unwilling to make a good relationship in reality resist the ideals in their hearts and grow step by step. They work together to pursue their dreams and build their own dreamland. They also hope to fly into the sky with feathers and wings, so that this dreamland will not be affected by others, open up their own future, and build the real path of this dreamland.

3D Chan Hui Lam , Cheung Lok Tung , Chiu Shuk Ting

In the face of sorrow, hardships can seem impossible to overcome. But I promise to stay by your side and wait patiently with you, understanding that healing takes time.

3C Hung Wang Hoi , Lam Lok Chun Matthew , Law Kin Hang , Wong Wing Hin

A man drives along the road, singing with joy. The sun sets, painting the sky in bright orange and pink. Each note he sings floats on the warm breeze. In that moment, surrounded by nature, he feels free and happy, enjoying the simple beauty of life.

S1

Healthy Cooking Competition

Students showcased their creativity by crafting delicious dishes using healthy ingredients, each decorated according to different themes. They presented their dishes in English, sharing their culinary inspirations. It was a fun-filled event that promoted healthy eating habits!

S2

Learning Beyond Classrooms - Human and Nature

During a recent excursion, students embarked on an adventure at The Lion Rock Nature Park in Sai Kung. As part of their thrilling activity, they participated in a photo hunt, capturing stunning images showcasing a diverse array of plant species. This engaging challenge not only enhanced their knowledge of the park's geological formation and rich biodiversity, but also sparked a deeper appreciation for the beauty of the natural world around us.

Good morning, Principal, teachers and fellow students

I am Chris Wong from class 5A. On behalf of the Student Association, I am here to share our plans to organise an orientation for new students. It will take place from 10am to 3pm on the 20th August. We welcome everybody including new students, parents and guardians.

The main purpose of the event is to serve as an orientation and warm welcome for new students. As we know, Mountain School has a relaxing atmosphere. Our students and teachers are friendly and amicable. Therefore, new students do not need to be worried about joining our campus and coming to an unfamiliar new environment.

Furthermore, we will also prepare various interesting activities during the orientation. Firstly, we will arrange some student teachers and volunteers to be ambassadors to introduce our school's history and diverse curriculum. We can highlight all the special rooms of the school and the professional equipment that we possess, which will make the students feel connected with the school.

The second activity would be a musical performance conducted by our school's Music Club. Music is a kind of entertainment that can enhance one's mood and make newcomers feel comfortable. Not only will it increase excitement during the event, but it will also provide new students with a chance to relax while enjoying the performance. We will also invite some mystery guests to lunch later that day. Can you guess who they are? We will invite some of the school's alumni. Everyone can have a chat with them and hear some cherished stories from the past. We hope that it can give new students a sense of belonging at the school. There are so many activities to enjoy.

Last but not least, we take pride in recruiting student volunteers for the orientation. If you have any interest in assisting, please feel free to contact us directly. We know that the event will bring lasting memories and offer you a valuable opportunity to represent the school.

Thank you!

S4

English in Action: Reader's Theatre

Students built confidence in public speaking through engaging script readings and character analysis. They expanded their vocabulary with profound words, while enhancing pronunciation. Our Reader's Theatre workshops concluded successfully with students having bonded over supportive group discussions.

S5

A Visit to Go Park

GO PARK Sai Sha is a new landmark that combines nature, sports, entertainment, dining, and leisure. It offers a variety of indoor and outdoor activities, with plenty of open spaces and facilities for families and sports enthusiasts.

S5

A Visit to the Museum of Hong Kong Literature

Students had the enriching opportunity to visit the Museum of Hong Kong Literature. This visit allowed them to explore the vibrant literary history and heritage of Hong Kong. Through interactive exhibits and engaging displays, students gained an insight into the works of renowned local authors. What a memorable experience!

S1 Shum Choi Hei Cali

Dear Joey,

How are you? I am doing great. I would like to share a bit about my life at Chang Pui Chung Memorial School. The transition from primary school has been both exciting and challenging. I have met so many new friends and teachers who have been very supportive.

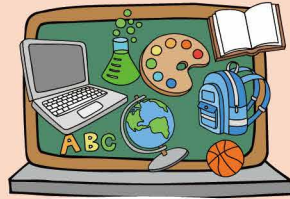

My school has many clubs, such as the Swimming Club, Computer Club, Badminton Club, and more! I've joined a few clubs, including the Basketball Club and the Red Cross. We have many facilities, such as a greenhouse, canteen, STEM Maker Base, cookery room, science laboratory, and more! There are also more new school subjects compared to primary school. For example, my secondary school has History, Geography, Science, Design & Technology, Home Economics and Information & Communication Technology.

When I first joined CPC, I was nervous and even a bit scared. However, my school teachers have been very helpful and understanding. They have guided me along the way, helping me with school work whenever needed. Therefore, I am very thankful to them. I am also very thankful to my classmates. When I don't understand how to tackle school work, my friends are there to offer assistance with patience. They bring me so much joy and laughter, so I am quite thankful to be in a class full of kind and generous classmates.

Although school can often be challenging, I'm learning how to manage my time more efficiently. Overall, I'm really enjoying my life here at CPC. I hope that one day you can come and visit. Take care and stay healthy!

Best regards

Chris

A weekend trip to Seoul in South Korea

Dear cousin,

How are you doing? Our family is planning an amazing weekend trip to Seoul, South Korea. We would like to invite you and your family to join us! I really can't wait to explore the beautiful scenery there.

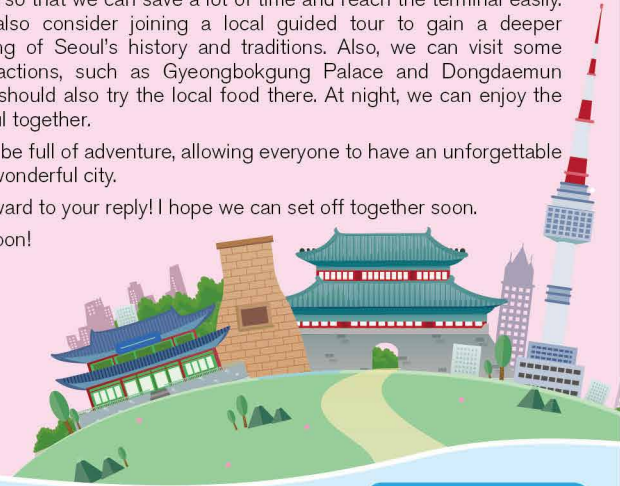

Our trip is going to be great! We will book tickets in advance and choose direct flights so that we can save a lot of time and reach the terminal easily. We would also consider joining a local guided tour to gain a deeper understanding of Seoul's history and traditions. Also, we can visit some famous attractions, such as Gyeongbokgung Palace and Dongdaemun Market. We should also try the local food there. At night, we can enjoy the view of Seoul together.

Our tour will be full of adventure, allowing everyone to have an unforgettable time in this wonderful city.

Looking forward to your reply! I hope we can set off together soon.

Talk again soon!

Angela

Online Shopping: Convenient or Not

Online Shopping is becoming more and more popular. The number of online shopping users in China has exceeded 915 million, among which the age group of 31 to 40 is the main driving force of e-commerce consumption in China. Have you ever thought about the fact that you can buy products from all over the world at home with this method of shopping?

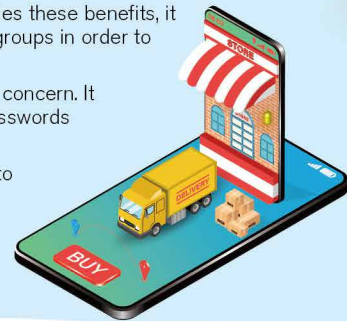

There is no denying that online shopping has a number of benefits. First, shopping online is really convenient. You can shop for what you need at home without leaving the house. We can do shopping any time we like. For example, when we buy an item, we want to compare prices in different shops. However, when using the internet, we can compare prices with just a click of the mouse.

Another advantage of online shopping is that it gives us a better understanding of new product trends. We can follow shops on social media or watch live broadcasts online, keeping us informed about new product releases. We can also receive timely updates on brands and styles. Besides these benefits, it can increase the fun we have in daily life. During leisure time, users can interact and communicate with online hosts and fans in fan groups in order to share their shopping experiences.

Although there are quite a few benefits of online shopping, its drawbacks should not be neglected. First of all, security problems are a concern. It is possible that we may be hacked when we shop online, resulting in the theft of data, bank cards or personal information. Our login passwords can be stolen, posing a threat to our personal safety.

Another disadvantage is what we buy online might not meet our expectations in reality. When shopping online, we need to be careful to distinguish between the items we receive and what we see online. We can pay more attention to the comments from other buyers, which can help us identify if the items are good or not. Most importantly, we need to find reputable online shopping platforms. As such, when we receive the products, we may be happier with our purchase.

To sum up, we have to stay cautious while shopping online to avoid falling into scams. To make best use of online shopping, we need to go to some reputable online stores and not randomly click on any links of unknown origins.

Taking a language course to learn foreign culture

There are two choices to make when learning a new language. I can either go abroad or go online. I think both of these choices have pros and cons.

First, if I choose to take a language course abroad, I will make more friends while learning the language. It will be an authentic experience where I can visit local spots, as well as explore new cultures and customs. As such, I will increase my cultural knowledge.

One disadvantage is that I will have to live far away from home. Being abroad for a long time will surely lead to homesickness. I will have less time to spend with family. I will also have to say goodbye to my current school and schoolmates. Such a fact will make me reluctant to leave everything behind.

Next, the option of taking a language course online means I can study at home, which is very convenient and affordable compared to studying abroad. I would have flexible study hours to learn a language. In other words, I can study online at any time.

Another issue is that I may become easily distracted while going online. It is because there are so many things at home to distract me from language learning. Owing to a lack of practice and exposure to the language, I will easily give up.

After weighing the pros and cons of the two options, my decision is to take the language course abroad. The main reason for my choice is that going abroad leads to full immersion, and that can help me to learn quickly. Although I will not be able to visit new places with family and friends, I believe it is ultimately better than studying at home.

Heavenly Haven

Sai Kung, where the sea meets the land
Verdant mountains rise like guardians they stand
Beautiful sunsets are a sight to behold
Walk through the mangrove, where secrets unfold

In the city centre, life buzzes around
With shops and cafés, lots of fun to be found
Boats with fresh seafood, gently sway
Until the sun comes up, they never go away

Golden sands stretch wide, where Clear Water Bay shines
Bright blue water invites us to play, till the stars align
The charm of Tai Long Wan, where surfers fly
Ride above the ocean roar, come give it a try

From country parks to Sharp Peak, a canvas of vibrant green
Breathtaking valleys and mountains, like a fantasy or dream
The hexagonal columns stand proud and tall
Stories of earth's deep mysteries, that time can't stall

Sai Kung, the haven of Hong Kong
where every place feels like home
With nature's splendour surrounding our days
Sai Kung, our treasure, in so many ways...
